

## Engineering Northwest Ltd. Joins Hatch Mott MacDonald

Engineering Northwest Ltd. (ENL), is pleased to announce that they have joined the Hatch Mott MacDonald (HMM) organization. ENL is a professional consulting engineering firm based in Thunder Bay, Ontario and is focused on highway, municipal, water and wastewater engineering, and project and construction management services. Hatch Mott MacDonald is a 2,200-person, full-service infrastructure, transportation, and environmental engineering company with offices throughout North America.

Engineering Northwest has been working closely with Hatch Mott MacDonald for the past 10 years. Together the firms have collaborated on a wide variety of projects, including several for the Ontario Ministry of Transportation, CP Rail and Cliffs Natural Resources.

Gerald Buckrell, President of Engineering Northwest commented, "We are excited by the possibilities that will come with being part of the Hatch Mott MacDonald organization. Joining HMM will enable us to offer a much wider range of services to benefit our clients, and help us to support both existing and new clients in and beyond our current geographic markets. The strengths of our two organizations are highly complementary, and this change will bolster the breadth of our technical capabilities."

Engineering Northwest will further strengthen Hatch Mott MacDonald's highway, bridge, rail, aviation and municipal practices in Northern Ontario, adding to the considerable expertise offered by the firm. "Engineering Northwest provides expertise, skills and tremendous people that will play a significant role in the continued growth of Hatch Mott MacDonald" noted Nicholas DeNichilo, President and CEO of Hatch Mott MacDonald.

"Coming together as a single team will allow us to better serve our clients across the region while maintaining the engineering excellence and high quality work that both ENL and HMM are known for", added Michael Schatz, HMM's Managing Director for Canada.

### About HMM

Hatch Mott MacDonald offers public and private clients a complete range of services including planning, feasibility studies, design, procurement as well as program, project and construction management. With 70 offices across North America, and access to staff resources of more than 25,000 worldwide, Hatch Mott MacDonald delivers world class solutions to meet clients' infrastructure and environmental challenges.
